DISTRIBUTED TO COUNCIL

Township of Langley
Est. 1873

MEMORANDUM

TO:	MAYOR AND COUNCIL	**DATE:**	JULY 16, 2026
FROM:	ENGINEERING DIVISION	**FILE NO:**	5330-28-024
SUBJECT:	TEMPORARY TRAIL CLOSURE: WEST MUNDAY CREEK TRAIL FROM 86A AVENUE TO 88 AVENUE		

The purpose of this memorandum is to inform Mayor and Council of an upcoming temporary trail closure of West Munday Creek Trail scheduled from July 27 to September 23, 2026.

The West Munday Creek Trail is located between 86A Avenue and 88 Avenue, as shown in Attachment A. The closure is required to facilitate the construction work of West Munday Creek Slope Stabilization. The work is weather-dependent and may be rescheduled or extended as necessary.

The West Munday Creek Slope Stabilization Project involves gabion wall installation and slope restoration works in the West Munday Creek ravine. The work requires a continuous trail closure.

The detour route (Attachment A) will ensure a safe route to navigate around the construction site for trail users.

A Highway Use Permit is required, and the following conditions will be met to minimize the impact on surrounding residents, businesses, and trail users:

- advertisement on the Township's website, social media, and eNewsletter
- implementation of a detour route
- notification of affected residents and property owners
- provision of liability insurance for $5M, identifying the Township of Langley as additional insured.
- provision of traffic control and a Traffic Management Plan (TMP).
