

Township of Langley  
**Energy Intensity Report**  
Performance Path for Part 3 Buildings

BCBC 2018 Part 10 (Energy Efficiency)

## 1 Project Information

I, \_\_\_\_\_, am the Coordinating Registered Professional for the below-mentioned project and have coordinated the design to substantially comply with the requirements of Part 10.2.3. of the 2018 BC Building Code, based on pursuing compliance with the BC Energy Step Code.

Building permit number		Building type		Number of dwelling units	
Builder					
Project address				Municipality <b>Township of Langley</b>	Postal code
PID or legal description					Climate zone <b>4</b>
Step pursued	Model floor area (m <sup>2</sup> )	Software name		Version	Climate data <b>Abbotsford, BC</b>

## 2 Building Performance Summary (As per Division C, Subsection 2.2.9.2)

Submission Requirement	Design Value
Total Energy Use Intensity	kWh/m <sup>2</sup> · year
Thermal Energy Demand Intensity	kWh/m <sup>2</sup> · year
Modeled Air Leakage Rate	L/s· m <sup>2</sup>
Green House Gas Intensity (optional)	kg· CO <sub>2</sub> e/m <sup>2</sup> · year
