

JUNE 28 2022 BUILDER FORUM SERIES: WHAT WE HEARD FROM YOU

Topic: Part 9 Upper Steps + Step Code Consultation
Attendance: 147 attendees
Survey respondents: 40
Presenters: Dallas Hordichuk, Bernhardt Contracting

Level of satisfaction with webinar:

"I am considering IDP: communication and coordination is the best framework to work under"

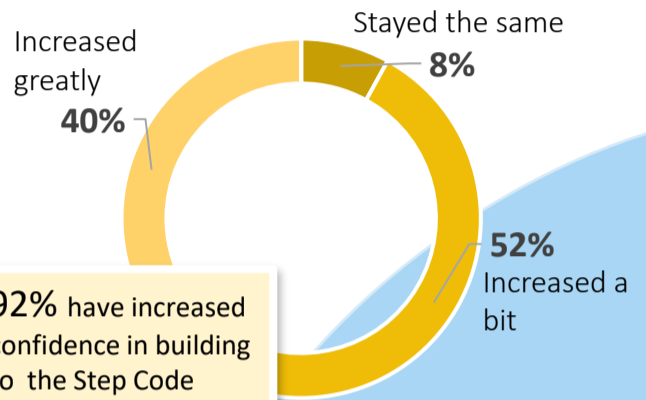

"[Will consider using] more efficient geometric design for better TEDI performance"

"The comparative analysis of Step 3 vs. Step 5 [was valuable]"

"The presenter spoke in very clear, uncomplicated terms"

"Great practical and first person experience insight"

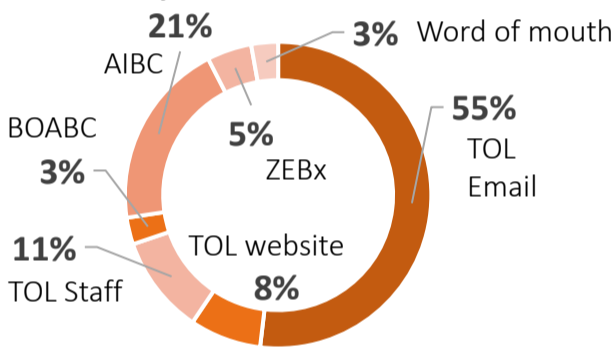

Has the webinar increased your confidence in building to the Upper Steps of the Step Code?

"[Most valuable] was the heat pump information and discussion"

"I learned that it is not too hard to hit the Upper Steps with proper planning. It shouldn't cost much more than an energy efficient house."

How did you hear about this webinar?

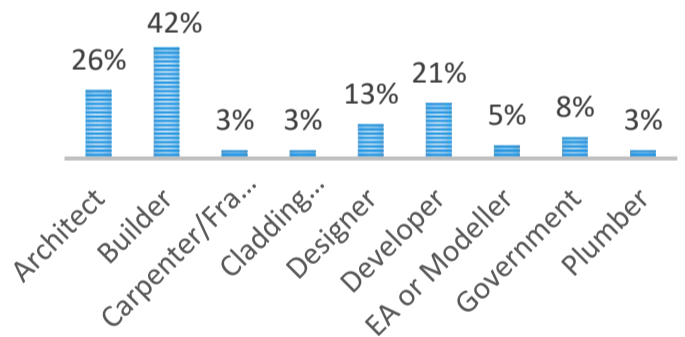

"Early collaboration is key"

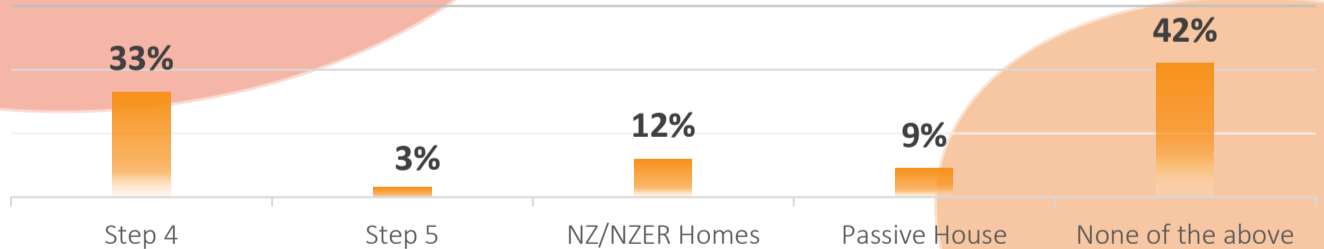

"This was the best session so far"

"The interactive nature of the presentation is great and provides ample opportunity for questions to be addressed. Presenters were very knowledgeable and the content was thorough but concise. Perfect balance"

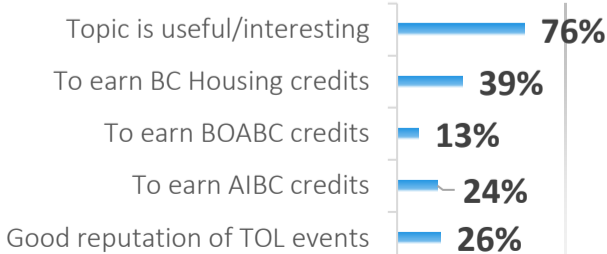

Attendees were a part of many different industries:

Which green building standards do you have experience constructing Part 9 buildings to?

Why did you attend this event?

Constructive feedback:

"More education for tradespeople"

"More information on how to claim educational credits"

"Hard to follow sometimes with technical terms"
