Township of Langley Election Website
Candidate Contact Information

For the 2026 General Local Election the candidate profile method has changed. Rather than provide a statement with limited number of words, the election website will provide contact information and links to online information that the candidates provide.

Using this method allows voters to have direct access to a greater amount of candidate information and eliminates the needs for the candidates to summarize their campaign and ideas in 150 words or less.

Candidates may fill in all the contact information below or none, but no additional links or contact information will be added.
